West Virginia's \$3.00 monthly fee is especially harmful to citizens who purchase prepaid cell phone service and who rely on such service for safety and security. For many of these vulnerable consumers, the monthly \$3.00 fee is an effective tax rate of 30-40 percent ... or even more!

Tell your members of the West Virginia Legislature **TODAY** that you want them to end the highest E911 cell phone tax in the nation.* Everyone benefits from E911, so it should be financed out of general state revenues. Make your views as an unhappy West Virginia taxpayer known by sending an email at <http://www.NoUnfairPhoneTaxes.org>.
